

# the modern day classic

A true high-end one box solution to meet the demands of the avid vinyl lover. The PS.30R is without a doubt the best selling sub-£3000 phono stage in the world. The PS.30R utilises technology from the flagship MC REF V to achieve it's sublime audio performance. All around the world it has been hailed as one of the very best phono stages EVER! It is used in both domestic audio as well as the professional audio field thanks to it's ultra low noise Class-A stages and unique power supply configuration which reduces crosstalk and increases system resolution to levels never heard before at this price point.

'With the PS.30R in my system, I was entertained with outstanding control, definition, focus, soundstaging and transparency - If you value black backgrounds, superb inner detail and fantastic imaging, this one definitely has some serious ear appeal'

**Tone Audio – Randy Wells**

'The PS.30R is, and I realise how dangerous such statements can be, nothing short of spectacular'

**LP Magazine – Holger Barske**

'Soundstaging is beautifully three-dimensional and solid. The dynamics are stunningly transient and fine dynamics are elegant and accurate - and with this performance, can claim to be one of the very best phonostages in the world'

**Hifi and Records - Helmut Rohrwild**

## Technology:

Single box solution for MM and MC cartridges

Hand welded 6063 aluminium chassis

Hand selected parts

Designed using 'trickle down' technology

6 gain and 6 load settings

Audio performance equalling stages 2-3 times its price
